PRESS RELEASE

MACDERMID GRAPHICS SOLUTIONS SPONSORS SCHOLARSHIP FOR CLEMSON UNIVERSITY'S GRAPHIC COMMUNICATIONS SCHOLARS PROGRAM

(Atlanta, GA USA) - February 5, 2019 – MacDermid Graphics Solutions is excited to announce the MacDermid Graphics Solutions Scholarship in Graphic Communications (GC) at Clemson University. This scholarship will help attract and retain exceptional student talent in GC for Clemson and the graphics arts industry.

Clemson's GC program is top-ranked in the US and has a global reputation for its outstanding faculty, students, and industry support. "MacDermid has been a long-standing partner with Clemson, and we are proud to be a sponsor of their GC Scholars Program," says Melanie Galloway, Senior Vice President of MacDermid Graphics Solutions. "Our sponsorship honors our commitment to the next generation of GC talent."

Scholarships will be awarded to deserving students based on a combination of academic accomplishments and financial need. "As a 1986 graduate of Clemson University's Graphic Communications program and the proud father of a daughter who's also a Clemson GC graduate (2014), I'm proud to be a part of a company that recognizes the value of Clemson's GC students. The next generation of Clemson GC grads are already having a positive impact in the printing industry, and it is my hope other industry partners will seek to participate in this scholarship opportunity at Clemson," says Trey Beckman, Director, Global Business Development at MacDermid Graphics Solutions.

As an industry leader and supporter of this scholars program, we know the importance of investing in the future of Flexo, investing in future talent, and investing in the future of MacDermid.

For additional information about Clemson University's GC Program, please visit their website at <https://www.clemson.edu/business/departments/graphics/>

About MacDermid Graphics Solutions

MacDermid Graphics Solutions is a global leader in the manufacturing and marketing of photopolymer plates and platemaking systems for the package printing industry. From analog to digital, liquid to sheet, solvent to thermal, MacDermid offers its customers a choice when it comes to selecting the plate processing method that is the best fit for their specific application.
