

LUX[®] ITP[™] Platform

Flat-Top Dots In-The-Plate[™]

LUX In-The-Plate (ITP) is THE first to market inherently flat-top dot technology. LUX ITP is the culmination of our passion and dedication to elevate flexographic printing to the next level. LUX ITP delivers flat-top dots in the plate and their proven print benefits to package printing industry.

The LUX ITP is a comprehensive portfolio of hard, medium, and super soft durometer plates. These plates are used in numerous package printing applications: flexible packaging; tag & label; folding carton; sacks, paper, multiwall; and corrugated.

PRODUCT RANGE

PROVEN BENEFITS OF LUX ITP

- Flat-top dots directly in the plate
- Increased productivity in platemaking
- Consistent results in both platemaking and print reproduction

SEGMENTS

- Flexible Packaging
- Tags and Labels
- Folding Carton
- Sacks, Paper, Multiwall
- Corrugated

Awarded the 2016 Technical Innovation Award by the FTA

Elevate Your Print to the Next Level

LUX[®] ITP[™] Platform

Flat-Top Dots In-The-Plate[™]

LUX[®] ITP[™] 60

- 60 durometer plate
- Patented clean plate technology
- Near 1:1 mask-to-plate imaging
- Low dot gain
- Exceptional consistency in printing
- Outstanding durability and drape
- Extremely low tack
- UV LED compatible
- Solvent or thermal processing

LUX[®] ITP[™] MELO

- Super soft durometer
- Minimal board crush
- Lowest possible fluting with a super soft digital plate
- Excellent ink transfer
- Holds the finest detail in all plate thicknesses
- Reduced dot gain
- Faster press speeds
- Quick wash out
- Chip resistant, tack free and extremely durable

LUX[®] ITP[™] M

- Medium durometer plate
- Patented clean plate technology
- Near 1:1 mask-to-plate imaging
- Low dot gain
- Exceptional consistency in printing
- Outstanding durability and drape
- Extremely low tack
- UV LED compatible
- Solvent or thermal processing

LUX[®] ITP[™] Sleeve

- 60 durometer
- Able to be formed into seamless sleeves using existing methods
- Flat-top-dot sleeves with standard ITR exposure equipment
- Near 1:1 mask-to-plate imaging
- Superior imaging/resolution capability
- Low dot gain
- Exceptional consistency in printing
- Outstanding durability and drape
- Extremely low tack

LUX[®] ITP[™] EPIC[®]

- Unique micro-rough surface
- Patented clean plate technology
- Excellent ink transfer
- A balanced plate surface for low image gain and exceptional solids coverage
- Near 1:1 mask-to-plate imaging
- Low dot gain
- Outstanding durability and drape
- Extremely low tack
- UV LED compatible
- Solvent or thermal processing
