## **PRESS RELEASE**

### **MACDERMID GRAPHICS SOLUTIONS TO EXHIBIT AT INFOFLEX 2019**

(Atlanta, GA USA) - April 11, 2019 – MacDermid Graphics Solutions, a worldwide supplier of photopolymer printing plates and platemaking systems, will be exhibiting at the premier trade show showcasing products, services, and innovations for printers and converters – Flexographic Technical Association’s INFOFLEX in New Orleans, LA, taking place May 6-7, 2019.

MacDermid Graphics will display the recent expansion of our innovative LUX® ITP™ flat-top dot portfolio, M-Systems liquid portfolio, and cutting-edge LAVA® thermal platemaking equipment.

“INFOFLEX allows us to present our innovative solutions to the people who need them, printers and converters,” stated Alicia Gibson, Strategic Marketing & Portfolio Manager. “We are excited to show our photopolymer plate and plate processing equipment portfolio which will help expand the flexographic printing industry for years to come. I encourage all show attendees to visit us to learn more about optimizing their platemaking workflow and improving their print capabilities.”

Visit us at Booth 119 to learn how our innovative product portfolio will take your flexographic print capability to the next level.

#### **About MacDermid Graphics Solutions**

MacDermid Graphics Solutions is a global leader in the manufacturing and marketing of photopolymer plates and platemaking systems for the package printing industry. From analog to digital, liquid to sheet, solvent to thermal, MacDermid offers its customers a choice when it comes to selecting the plate processing method that is the best fit for their specific application. MacDermid Graphics Solutions has been leading the way in flat-top dot technology with our award-winning LUX® ITP™ Platform and LUX® Lamination. To elevate your print to the next level, count on the flat-top dot technology experts, MacDermid.
